| B | I |   | L |   | O |   |   |   |
|   |   | S |   |   |   |   |   |   |

Instead of using numbers 1-9, nine different letters are used. Like sudoku there is only one letter in each row or column.

You need to work out what the nine letters are. The letters spell two words which describe what you never want to be in orienteering.
